1983-1993 Cabriolet CIS Fuel Pump Relays

321906059D
321906059E
321906059F

321906059G

321906059H

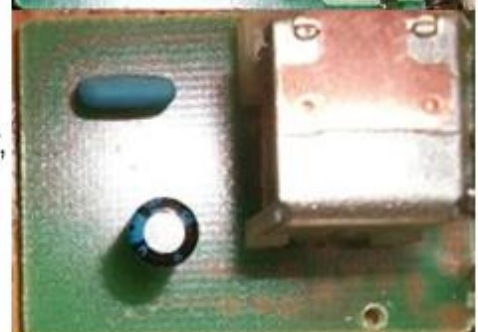

All of the above replacement relays are interchangeable, provided the factory installed the correct circuit board:

If possible, before leaving the store (or if the car will not stay running after installing a new KAE relay), open the relay. You should see circuit board 055.

If you see 056 or similar,  it is the incorrect circuitry for the relay & should be returned.
