Cabriolet

German engineering. The Volkswagen way.

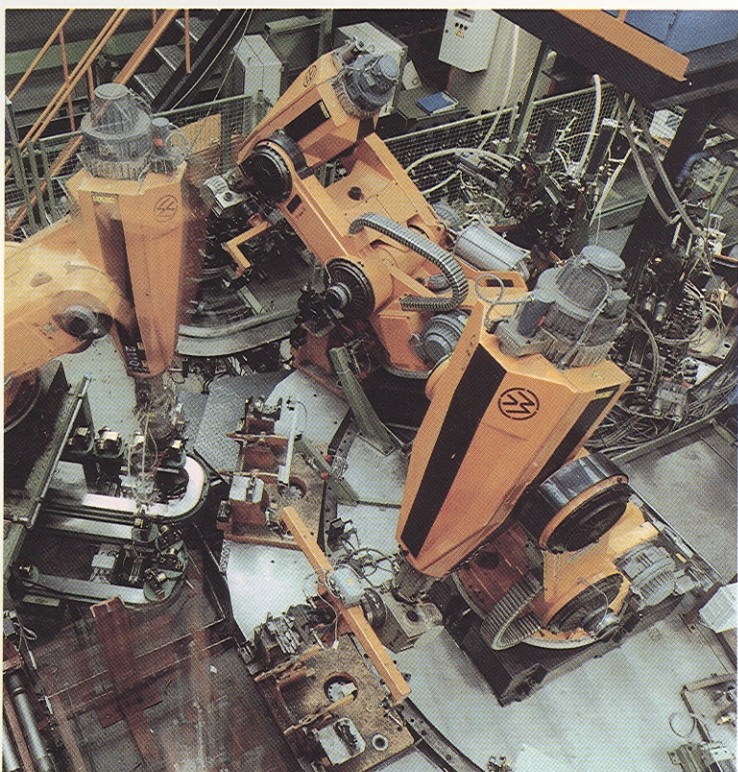

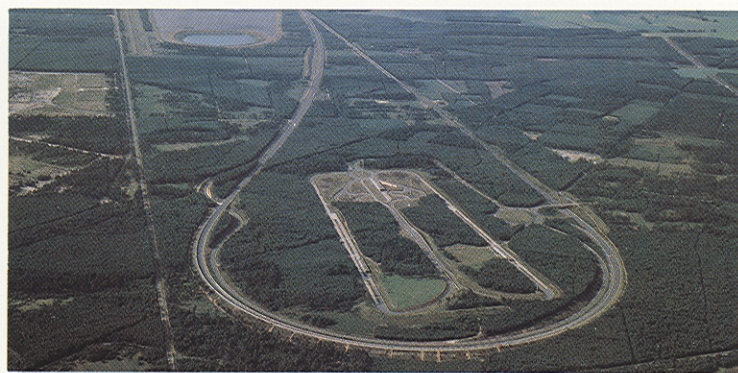

The Volkswagen Cabriolet features front wheel drive for increased traction and better directional control.

These words are what set us apart from every other carmaker in the world.

These words explain why our cars look, feel and drive the way they do.

And these words underscore the worth of a Volkswagen. For the Volkswagen "way" is a very personal point of view we take in designing, engineering and

manufacturing every product we sell.

By employing contemporary German technology, we create a unique, harmonious relationship between car and driver. Our heritage of engineering enables us to produce cars that provide an ergonomically sensitive environment for driver and passengers. Cars of enduring design

that offer the unique benefit of German engineering, at prices you can afford.

As we enter into our 40th year of selling Volkswagens in the United States, the 250,000 people in the worldwide Volkswagen organization still share in the same common goal: to provide you with a more gratifying driving and owner-

ship experience. To this end, we will continue to build our cars the Volkswagen way.

To contribute to the rewarding experience of owning a Volkswagen, your new Cabriolet is protected by a 2-year/24,000 mile limited warranty against defects in materials and workmanship. A 6-year limited warranty is provided against

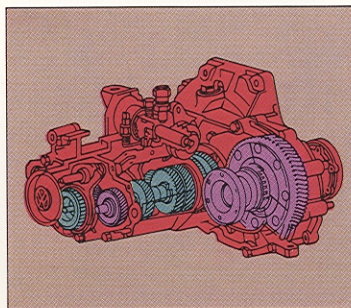

corrosion and rust perforation.

Our national network of over 800 Volkswagen dealers can supply you with warranty, parts and service details. Ask about the Volkswagen endorsed "MasterGuard" extended service plan at participating dealers, which offers cost-efficient mechanical protection for up to 5 years or 100,000 miles.

Volkswagen gives German engineering a place in the sun.

Cabriolet features a fully synchronized, close-ratio 5-speed transmission for smooth, swift acceleration.

The Cabriolet opens up a whole new world of driving fun. Just put down the top, turn up the stereo, and you're ready to enjoy Volkswagen's idea of a gratifying driving experience.

Created by the master craftsmen at the legendary Karmann Coachworks, Cabriolet is a prime example of the meticulous skill and pride with which a

car can be built.

Engineered to let you race the wind, the Cabriolet's 1.8 liter fuel-injected engine linked to a close-ratio 5-speed transmission smoothly reaches maximum torque in each gear. Behind the wheel you'll experience the quick response of rack and pinion steering, the taut handling of an independent sport tuned

suspension, and the stopping strength of ventilated power front disc brakes.

So whether you're in the passing lane, blending into traffic or cruising effortlessly on the open road, Cabriolet provides the performance that lets you accomplish each driving task with confidence.

**There's a Cabriolet to match
the uniqueness of you.**

Cabriolet has a distinct personality all its own. Yet it strives to keep your driving excitement high.

Outside, aerodynamic body colored bumpers and aprons, wheelhouse flares and rocker moldings enable you to slice through the wind. Inside, the ergonomics keep you in command. And everywhere, standard

amenities abound. There's an AM/FM stereo cassette deck with illuminated storage box. Dual remote mirrors and tinted glass. Plus a rear seat-back that folds down for easy inside access to the trunk.

Cabriolet sports a hand finished 3-layered insulated top with a built in rear glass window and electric defroster. When the

top is down, it stores neatly in its own storage boot and is protected by a durable snap-on cover.

If you prefer to express your personality, there's the "Best Seller" Cabriolet that combines exciting body and roof colors with 14" alloy wheels, and a unique sport seat interior with leather wrapped steering wheel and shift knob.

For even more individuality, an all-white Cabriolet "Boutique" features height adjustable white leather seats with leatherette facings and door trim panels, power steering and 14" white alloy wheels.

Driving a convertible has always been a very personal statement. But driving a Cabriolet says a lot more about you.

It's easy to stay comfortable with the wind in your hair.

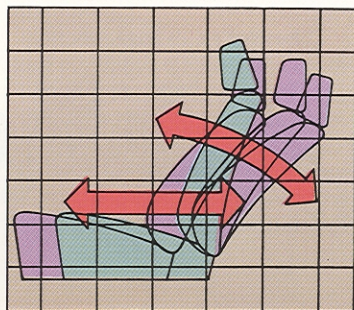

The interior of the Cabriolet is just as sensitive to your driving comfort as it is to your driving needs. Full analog instrumentation is carefully positioned. A quick glance monitors crucial functions of the car. Vital controls can be activated with a flick of the wrist. And important engine data can be gathered from the oil pressure, water temperature and voltmeter

gauges located in the center console. None of the Cabriolets take a back seat to standard comfort and convenience features. Its front wheel drive design allows more legroom for rear seat passengers. Expansive glass areas and carefully engineered interior space create an open environment, even with the top up.

Since each of the Cabriolets make a very personal driving statement, their interiors reflect their individuality. All offer fully reclining bucket seats with fore and aft adjustment. And all provide excellent lumbar support.

The Cabriolet's seats are upholstered in handsome fabric and are contoured to provide comfort for miles on end.

The "Best Seller" interior is distinguished by its specially designed sport seats in unique cloth upholstery. Driver comfort is assured by fine tuning the seat height. And sportiness is brought to greater heights with a leather wrapped 4-spoke steering wheel and shift knob.

The Cabriolet "Boutique" offers the luxurious comfort of

white leather sport seats and headrests combined with the practicality of white leatherette facings and trim. Both front seats are height adjustable for exacting comfort. And a leather wrapped 4-spoke steering wheel and shifter await your grip.

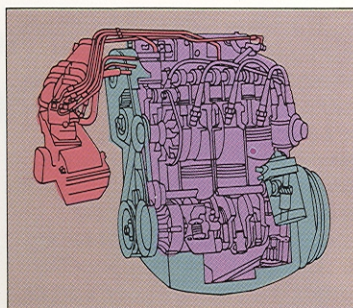

You get a lot more than a suntan with the Cabriolet. You get it all.

At the heart of Cabriolet's power is a lively 1.8 liter CIS fuel-injected engine with tuned intake system. Hydraulic valve lifters reduce maintenance and provide quieter engine operation. High lift valving improves engine breathing efficiency and performance.

Cabriolet's CIS fuel-injection system features a precision fuel distributor and fuel metering valve to help maintain efficient fuel-air mix. An electric fuel pump and pressure regulator provide positive and uniform fuel supply and pressure.

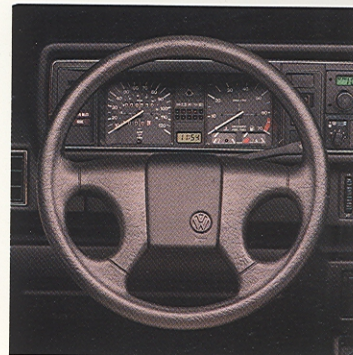

Specifications

Cabriolet/Best Seller/Boutique

Engine Type	4-cylinder, in-line, SOHC fuel-injected		
Displacement	1.8 liter, 109 cu. in.

See your authorized Volkswagen dealer for a complete selection of other available dealer installed parts and accessories to further enhance your driving fun.

A WORD ABOUT UPDATED SERVICE INFORMATION: Volkswagen regularly sends its dealers useful service information about our products. Volkswagen monitors product performance in the field. We then prepare bulletins for servicing our products better and helping to avoid costly repairs. Now you can get these bulletins, too. To get ordering information, see a local Volkswagen dealer.

Volkswagen United States, Inc. believes the specifications in this brochure to be correct at time of printing. However, specifications, standard equipment and options are subject to change without notice. Some options may be unavailable when your vehicle is built. Please ask your dealer for advice concerning current availability of options and verify that your vehicle includes the optional equipment you ordered. Tires are supplied by various manufacturers. Fox, Golf, GTI, Jetta, Vanagon and Volkswagen are registered trademarks of Volkswagen AG. Seatbelts save lives. Don't drink and drive.
