Cabriolet

Cabriolet. Affordable value from Europe's Number One carmaker.

Cabriolet's front suspension geometry features negative steering roll radius for increased steering response.

Value.

That's a word with special meaning for us at Volkswagen.

Because for over 40 years, Volkswagen has been a world leader in automotive technology and value.

Today, Volkswagen is the world's fourth largest carmaker, and the only carmaker that combines European design and performance at an affordable price.

You'll appreciate these qualities the first time you get behind the wheel of a new Volkswagen.

And your appreciation will grow with each passing mile.

Cabriolet is designed to live up to the Volkswagen tradition, and to provide an exceptionally gratifying driving and ownership experience.

As a result, the way it looks, feels and drives is distinctive.

Its driver and passenger environments reflect years of

ergonomic study.

Its fuel injected engine, independent suspension, rack and pinion steering and front wheel drive enhance driver control and impart a sense of confidence that must be personally experienced to be appreciated.

And they make driving a new Cabriolet a great deal of fun.

To help assure that confidence continues, every Cabriolet is protected by a 2-year/24,000-mile limited warranty against defects in materials and workmanship, a 5-year/50,000-mile limited powertrain warranty and a 6-year limited warranty against corrosion and rust perforation.

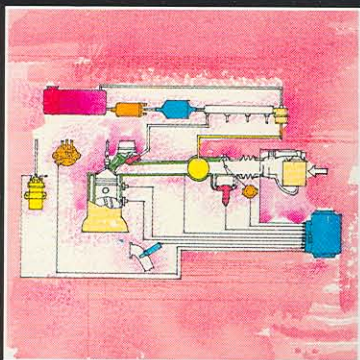

Test drive a Cabriolet to see what we mean by Volkswagen performance and value.

And why it's time to think about Volkswagen again.

In 30 seconds, you'll fall in love.

Electronic fuel injection delivers a precise amount of fuel to each cylinder for smoother, more spirited response.

That's how long it takes to put down the top, turn up the stereo and smile. The Volkswagen Cabriolet opens up a new world of driving enjoyment.

Created by the master craftsmen at the legendary Karmann Coachworks, the Cabriolet's appeal comes from more than a movable top. It accelerates briskly and effortlessly, thanks to a new, more powerful 1.8 liter fuel injected engine.

What this means is smoother, crisper, more spirited response across the engine's entire operating range.

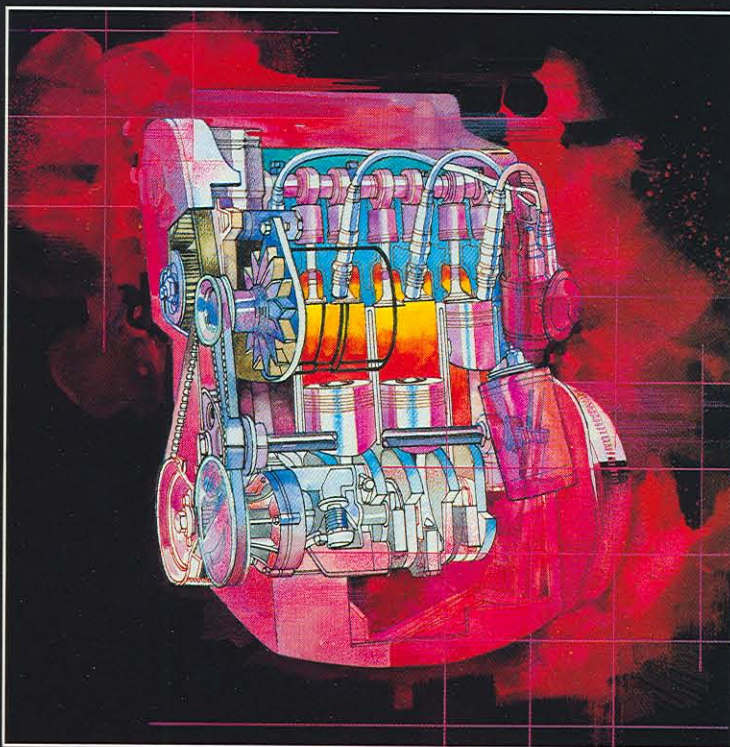

The same advanced engineering is found throughout the Cabriolet. You can feel it in the responsiveness of its power assisted rack and pinion steering, the sure-footedness of its sport-tuned suspension, and the reassuring stopping strength of its ventilated power front disc brakes.

You'll see it in the Cabriolet's

hand finished top; its sensible design makes it easy to put up or down, and the insulated 3-layer construction helps muffle outside noise while providing maximum comfort in any weather. All Cabriolets have a scratch resistant glass rear window and electric defroster, power front windows and a fold down rear seat for maximum luggage and cargo flexibility—standard features many other convertibles don't even offer.

It takes only 30 seconds to fall for a Volkswagen Cabriolet. But its quality engineering and scores of standard features will help ensure your relationship remains strong for years to come.

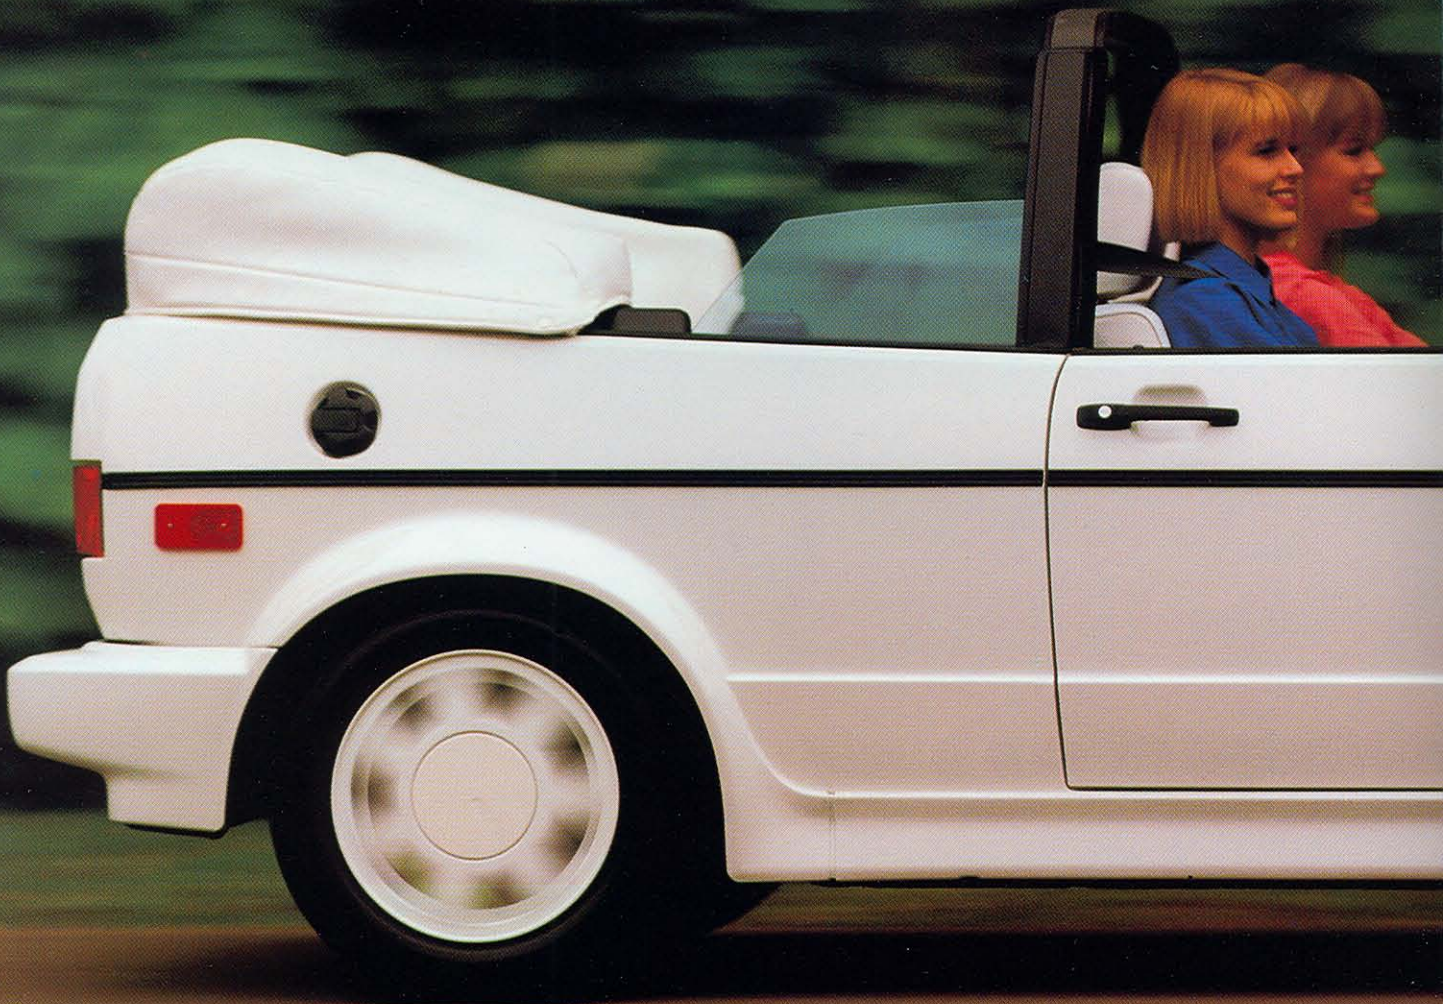

Cabriolet provides a gratifying blend of performance, efficiency and sheer driving fun with its new, more powerful 1.8 liter engine.

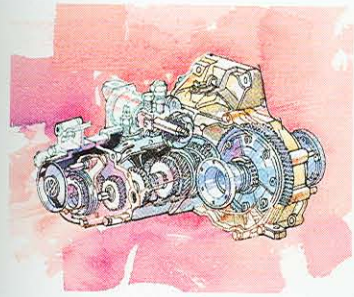

**Best Seller. The most popular
edition of our softcover classic.**

The Cabriolet Best Seller combines the popular standard features of the Volkswagen Cabriolet with Best Seller extras that help you express a style and personality all your own.

The Best Seller adds sporty 14-inch alloy wheels to the Cabriolet's integrated body-colored bumpers and aprons, wheelhouse flares and rocker

moldings.

Inside, the Best Seller provides special sport design cloth bucket seats. Both front seatbacks are infinitely adjustable, and the driver's seat can be adjusted for height. A special leather-wrapped steering wheel and shift knob are also included.

All of this is in addition to the many standard features that

make the Cabriolet such an outstanding value.

Features that include power assisted front disc brakes, a driver's side air bag and unitized all steel body construction with energy absorbing crush zones.

For your driving enjoyment and convenience, the Cabriolet comes with a fully synchronized close-ratio 5-speed transmission,

an AM/FM stereo cassette radio with 4 speakers and anti-theft protection, a folding rear seat, a right-hand vanity mirror, and more.

So it doesn't matter whether your destination is a weekend hideaway or an office downtown. Because Cabriolet Best Seller is equipped to make getting there half the fun.

Power-assisted rack and pinion steering, a sport-tuned suspension and power assisted front disc brakes are standard equipment.

Cabriolet Boutique. The fun goes up when the top goes down.

In Europe, what begins as a frosty jaunt through Alpine ski country can continue a few hours later on the beaches of Marseilles. So a convertible that provides true driving pleasure in any kind of weather is not only expected, it's required.

The Volkswagen Cabriolet is designed to provide this kind of versatility. It's comfortable and fun to drive whether the temperature is 92 above or 9 below. And for those who seek even higher levels of fun and luxury, we offer the Cabriolet Boutique.

The Cabriolet Boutique combines the luxury of infinitely adjustable white sport seats with leather seating surfaces. The driver's front seat is height-adjustable for superior comfort. Unique 14-inch alloy wheels (color-keyed when you order Alpine White) and a leather wrapped 4-spoke sport steering wheel and shift knob complete

the Boutique package.

The joys of driving a Cabriolet Boutique with the top down are obvious and many. But it's when you put the top up that you enjoy some of the extra values of a Volkswagen.

The Cabriolet's handcrafted top is padded and fully lined. It includes a glass (not plastic) rear window that doesn't cloud or scratch for improved visibility and longer life. There's also a standard electric rear defroster. Together, they help deal with the elements so you don't have to.

Top up or top down, you'll enjoy Cabriolet's spirited performance and truly unique fun-to-drive ambience.

In the Cabriolet Boutique, you get a sporty yet luxurious European Cabriolet. At a price you can afford.

That's what Volkswagen value is all about.

A leather-wrapped 4-spoke sport steering wheel with integral driver's side air bag is standard on Cabriolet Boutique.

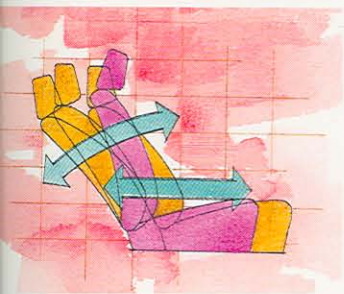

**The fun begins the moment you
step inside.**

The first thing you notice when you sit in a Volkswagen Cabriolet is that there's plenty of room for you and 3 friends. Expansive glass areas and generous amounts of head- and leg-room contribute to a feeling of ease and openness you might expect of a much larger car.

You'll also notice how the Cabriolet's infinitely adjustable,

fully reclining front bucket seats fit your contours like a glove. The seats help you feel relaxed and refreshed even after traveling long distances.

The same kind of consideration is evident throughout the Cabriolet. In front of you, the padded instrument panel contains full, easy to read analog gauges. Major controls are at

your fingertips, where they can be activated quickly and easily. Additional engine data is available from a cluster of gauges located in a convenient center console.

Above all, test drive a new Cabriolet today to appreciate the confidence it inspires. Its power assisted steering and front disc brakes have a light, positive feel. Its front wheel drive provides

reassuring traction under varying road conditions. And its padded, insulated top keeps you nice and warm even when the weather outside isn't.

You get a lot more than top-down fun with a Volkswagen Cabriolet. You also get comfort, quality and outstanding value.

It's time to think about Volkswagen again.
